PEACE PACT TO BE SIGNED SATURDAY AFTERNOON.

BERLIN, June 25.—Herman Mueller, the new Foreign Minister, the Tageblatt says, has declined to go to Versailles to sign the peace treaty.

PARIS, June 25.—Advices from Germany to the Council of Four are to the effect that the German Government was occupied to-day in selecting new delegates for Versailles.

If the heads of the Allied Powers in Paris do not hear from Weimer very soon regarding the German delegation for the signing of the treaty, an ultimatum will be sent to the German Government, according to the Paris office of Reuters Limited.

The ultimatum will demand the appointment of plenipotentiaries within a certain number of hours.

The treaty of peace will be signed Saturday, it is believed. Although the day has not been fixed definitely, it has been decided that the hour for the ceremony will be at 2 p. m.

Lack of official advices from Germany with regard to the new plenipotentiaries has caused some uneasiness to manifest itself in conference circles and the plans for the signing of the treaty are in a complete state of suspense.

Herr Haniel Von Halmhausen, the acting German representative at Versailles, apparently also is without information.

KAISER LEARNS HIS FATE; LAST HOPE IS BANISHED.

AMERONGEN, June 26.—News of Germany's decision to accept the peace terms, including the clause providing for the delivery of the former German Emperor to the Allies, reached the castle Wednesday. Exactly how the former Emperor was affected by the tidings cannot be ascertained, but the attitude of members of his party gives rise to the belief that the news was a considerable shock.

When the Associated Press correspondent talked to attendants they declared the news was already known at the castle. They made most scathing criticism of the German National Assembly for its action. Evidently they held to the hope that some way would be found for the former Emperor to return to Germany. Now, however, it apparently is realized that he is exiled forever from his country.

AUTO THIEVES BUSY.

The Richmond Register has the following regarding the theft of an auto in this city belonging to a Richmond man; but which has since been recovered:

"A nifty thief stole Capt. Sam P. Burnam's Buick roadster from in front of a garage at Paris, Sunday, after Capt. Burnam had placed it with the garage for storage. After using it probably as much as he desired, the thief took a little trip to Winchester and left the car there, where Capt. Burnam recovered it Monday. The roadster is painted green and therefore easily identified. The thief had evidently done considerable rough riding in the machine, for it is damaged about \$200 worth, and Capt. Burnam will look to the Paris garage to make it good, it is understood."

The machine was found by Chief of Police Link, on the Planagan pike, about a mile from Winchester. The rear of the car had been badly damaged, evidently from a collision, and the rear wheel was broken off. Following the clue which he had struck Chief Link found a tire which had been lost from the machine, near Boonesboro. The machine had been left parked on Main street, near Twelfth street, in this city.

An auto bearing the license number 56,514, belonging to Mr. Newton Rankin, of Carlisle, was stolen from near the carnival grounds, on Winchester street, in this city, Tuesday night. The machine had been driven to Paris by Mr. Grover Herrington, with a party of friends, from near Osgood, to attend the carnival in progress here. The machine was parked on Winchester street, near the grounds, and when the young people called for the return trip the car was missing. The police were informed, but as there was no clue as to the identity of the thief, they have so far been unable to locate either the thief or the machine.

DRUG STORES TO ADOPT EARLY CLOSING RULE.

During the summer and until further notice the drug stores of Paris will close at seven o'clock each evening, with the exception of Saturday. On Sundays they will be open from 11:00 a. m. to 1:00 p. m., and from 7:00 to 8:00 p. m. This action was decided upon at a meeting of the druggists, held yesterday morning. The public is asked to make note of this action, and govern themselves accordingly.

INTERESTING OIL NOTES

It is reported that the Bourbon Oil and Development Company has completed No. 2 on the Comet block No. 28, in Estill county, which is estimated at 10 barrels.

The Mutual Oil & Refining Company recently organized here, is having a rig moved to its holdings in Knox county, where there is said to be renewed interest in oil development.

W. S. Soper, vice-president of the Bourbon Oil & Development Company has left for Johnson county for the purpose of resuming the company's operations there after an interruption of several weeks. A number of companies are actively engaged in drilling for oil and gas in Johnson county, and reports are favorable for good results.

The Co-operating Land & Development Company's No. 2, on its Hieronymus lease in Lee county, has started off pumping nicely and is said to be a better well than No. 1, which has been doing about 20 barrels a day. On the adjoining Susie Bryant lease this company's No. 1 is down several hundred feet. The Co-operating Company is said to be negotiating for some territory in Elliott county, which is attracting considerable notice at present as a prospective oil field of importance. The company is also reported as making arrangements to take over some good leases in the Western Kentucky field.

K. OF P. MEMORIAL SERVICE

It has been the custom for years for the Knights of Pythias to hold memorial services for their dead and as we have just emerged from the bloodiest war in the world's history and many of the brave Knights have given their lives for the great cause of freedom it is fitting that this custom should be continued and every Knight should make a special effort to attend such services this year in memory of those who have made the supreme sacrifice. Therefore Rathbone Lodge No. 12 has planned for services to be held in the Paris Cemetery, Sunday afternoon, June 29, at 3:30 o'clock. All members of the order are requested to meet at the hall in the Wilson Building promptly at 2:30, and go in a body to the cemetery.

The Hon. Aubrey Barbour, Past Grand Chancellor of Newport, Ky., has accepted an invitation to deliver the principal address, and there will probably be short talks by some of the local members and music will be arranged for.

The public is extended a very cordial invitation to attend this service. Mr. Barbour is an excellent speaker and will please all who hear him.

BACK IN HARNESS.

After having served his country in the aviation branch of the service in the navy, and received an honorable discharge from the service, with the rank of Ensign, J. Monroe Sweeney, of Paris, has again donned the blue uniform of an umpire.

Mr. Sweeney spent several weeks in this city after his discharge, as a guest of his mother, Mrs. John S. Sweeney, on Higgins avenue. About two weeks ago he accepted a position with a Pittsburg, Pa., firm, which he resigned to go on the ball field as umpire for the Franklin, Pa., baseball team. Monroe has officiated in this capacity scores of times, and was at one time official umpire in the old Blue Grass League, and later on with college teams in the East.

WELL-KNOWN COLORED MEN CALLED BY DEATH.

Three colored men, who were for years well-known in Paris, died within a few hours of each other between Tuesday night and Wednesday afternoon. Frank Jones, who for years conducted a grocery in Claysville, died at his home after a short illness of heart trouble. James Arnold, for many years porter at the Hotel Windsor, died at his home on High street, of kidney trouble, and Moses Towles, the third member of the triangle, passed away at his home in Claysville after a short illness of a complication of diseases.

BOURBON CIRCUIT COURT.

With the handing down of orders in a number of equity cases and the assignment of cases for trial at the next term of the Court, in November, by Judge Stout, the June term of the Bourbon Circuit Court, which has been in session since June 16, came to a close Wednesday afternoon. All the members of the petit juries were discharged and returned to their homes.

An order was issued in the \$50,000 damage suit of James McClure vs. Jas. D. McClintock, assigning the case for trial at the November term, on the third day. In the plaintiff's petition he charged the defendant with having written a letter to a bonding company, which resulted in the latter withdrawing its indorsement for Mr. McClure as Cashier of the First National Bank in this city; and as guardian and trustee in a number of instances. The case has been tried twice before, once before a special trial judge, in which the plaintiff was given a verdict for damages in the sum of \$10,000, which was later reversed by the Court of Appeals and remanded to the lower court for trial. The plaintiff now asserts that he has in his possession the original letter written by Mr. McClintock to the bonding company; and that this letter will be introduced as evidence in the next trial.

In the case of Alvin Hicks vs. the Frankfort & Cincinnati Railroad Company, an order was entered dismissing the case as settled.

In court Tuesday Judge Robert L. Stout overruled the mandamus brought by the Bourbon County Board of Education, asking an order compelling the court to levy an additional ten per cent. assessment on each \$100 worth of property for school purposes. The Fiscal Court had previously levied a ten per cent. assessment. Judge Stout held that the Board of Education had filed its application too late.

PLANS PERFECTED FOR THE IMPROVEMENT OF COUNTY ROADS.

At a joint meeting of members of the Bourbon County Fiscal Court and a committee of thirty-three farmers of the county, held in the court house, plans were perfected by which a twenty-cent road tax and a bond issue of \$500,000 will be voted upon to improve the seventy-five miles of inter-county roads and to improve and repair the 225 miles of cross roads in this county.

The meeting was addressed by Attorney John J. Williams, one behalf of the farmers, who discussed the various features of the suggested plan. It was brought out at the meeting that the improvements would be placed on a fifteen-year plan, and that the cost of construction would be about \$15,000 per mile. A proviso was set forth by a committee representing the farmers by which the handling of all funds and the letting of contracts for the road work are to be put into the hands of four commissioners to be appointed by the Fiscal Court, consisting of two Democrats and two Republicans.

A committee was appointed to draw up a petition with which to go before the people and get enough signatures to bring the question of a bond issue and the twenty per cent. increase tax assessment before the voters for their decision. This committee subsequently met and reported with the requested petition, which is now being circulated among the voters of the county for their signatures. If the requisite number of signatures to the petition are obtained the question will go to the people in an election to be held in the early fall.

JUST A BOOTLEGGIN'

Mack Beatty, colored, was presented in the County Court, Wednesday, on a charge of "bootlegging." Beatty made the plea to Judge Batterton that the liquor in his possession was for his personal use, but Judge Batterton, from the quantity of "evidence" presented, could not be convinced, and gave Beatty a fine of \$50 and a jail sentence of twenty-five days.

IN THE SERVICE OF THEIR COUNTRY.

A message was received in this city Wednesday by Mrs. T. D. Berkeley, from her brother, Mr. Dillon Price, announcing his safe arrival at Charleston, South Carolina, from France. Mr. Price has been in the service overseas in the Marines. He will return to Paris as soon as he has received his final discharge papers.

Mr. J. H. Burroughs, of Millersburg, received a telegram Wednesday, announcing the safe arrival from overseas of his son, Mr. Jesse Burroughs, who has been in the service for several months in France. Private Burroughs landed at Newport News, from where he went to an Eastern demobilization camp, where he will receive his final discharge papers, and be mustered out of the service.

Capt. (Dr.) J. A. Orr, of Paris, who has been attached to the Medical Corps in the overseas service for several months, has arrived at Charleston, S. C., on the transport, "Princess Matoika." He expects to receive his honorable discharge from the service in a short time, and will return to Paris. Before his induction into the service Dr. Orr was associated with Dr. Charles G. Daugherty in the practice of medicine in this city.

Mr. Wm. P. Fisher, of the Fisher Transfer Co., in this city, has been advised by wire of the safe arrival at Newport News of his son, Corp. Owen Fisher, who has been in France for over a year. Fisher enlisted at the beginning of the war, and while overseas was attached to the Thirty-third Division, which was in some of the hardest-fought battles of the great world war. Before his induction into the service Corp. Fisher was in the employ of the Cumberland Telephone Co., in this city.

Lieut. Earl Curtis and Mrs. Curtis arrived in this city Wednesday from Ft. Worth, Texas, for a visit to the former's father, Mr. Henry C. Curtis, and family. Lieut. Curtis has been in the service for several years, having been stationed on the border at the time trouble with Mexico developed. A number of other Paris boys, among them, Lawrence James, Fred Erd, Newsom Keller, were in the service at the same place and the same time. Lieut. Curtis has been discharged from the service, and will remain in Kentucky for some time. He has not as yet decided as to what business he will go into.

Private Henry Metzgar, of Paris, has returned to this city after an overseas trip from France, where he had been in the service for several months with the Sixth (regulars) Division of the American Expeditionary Forces. He has been mustered out of the service and will resume his former position here. Private Metzgar was in many of the big battles in the great victory offensive and came out without even a scratch. He has had many thrilling experiences, which he has been relating in a modest way to his friends and acquaintances. Private Metzgar is a guest at the home of his father, Mr. Max Metzgar, on Parrish avenue.

Interesting letters telling of her work, have been written from Trier, Germany, by Miss Eva Spencer, of Lexington, to her sister, Mrs. Wm. B. Ardery, of Paris, and her parents, Rev. and Mrs. I. J. Spencer, of Lexington. Miss Spencer went to England some months ago as a member of the nursing staff connected with the Base Hospital Unit No. 91, from Chicago. She has been transferred from that Unit to Hospital Unit 19, from that Unit to Hospital No. 19, and sent to Germany. She has charge of three wards in the hospital, and has been highly complimented for her efficiency. Having a vacation a few days ago she paid a visit to Bingen-on-the-Rhine, and other places famed in poetry and history.

Able seaman Carl Mitchell, of Paris, who has been in the service on board the U. S. S. South Carolina, returned to this city Wednesday night to remain. Seaman Mitchell received his discharge at the demobilization camp in Pittsburg, Pa., after his return from the last of a series of overseas trips on convoy duty. While in Pittsburg, Mitchell met W. O. Pennington, of Paris, who had just returned on the U. S. S. "Oklahoma," and was there awaiting his final discharge papers, so as to return to Paris. Pennington told him he had seen Ed. Fitzpatrick, another "old tar" of the fleet, who was on the U. S. S. Mississippi, and who hoped to be mustered out of the service very soon. He said that Fitz, who was a former attache of THE NEWS, had a position as first-class printer in

STATE EPWORTH LEAGUE CONFERENCE IN SESSION.

The tenth annual conference of the Epworth League of the Kentucky Conference, M. E. Church, South, opened its sessions at Winchester, Friday night, with an address of welcome by Miss Fannie Elkin, president of the Winchester League. The sessions are being held at Kentucky Wesleyan College. The conference will adjourn Friday night. About 75 delegates are in attendance.

George Rogers, Covington, made a response to Miss Elkin's address. Dennis V. Snapp, of Paris, the president of the organization, presided made a short address. Following the opening meeting a reception to the delegates was held at the Girls' Home of the college.

The following delegates from the Paris Epworth League Chapter are in attendance: Misses Bettie Shaw, Sara Power, Mabel Galloway, Edna Snapp and Sadie Fuller, and Mr. Dennis V. Snapp, who is presiding over the sessions.

Following a business session of the cabinet, Miss Elizabeth Clark, of Harrodsburg, secretary of the organization, conducted the praise and devotional services. Organization of the conference, roll call, district reports and appointments were routine matters disposed of.

The president's address by Dennis V. Snapp, of Paris, was replete with the work of the league for the past year. Rev. John Jenkins, pastor of St. John's church, Augusta, Ga., gave an informal talk, taking the place of the Rev. Ralph E. Nollner, of Nashville, who had not arrived. Announcements and introduction of visitors finished the morning program. A tennis tournament planned for the afternoon was postponed on account of the weather. A vesper service was conducted by Rev. Dr. B. F. Orr, of Paris.

BOURBON TOBACCO WAREHOUSE CO. TO ERECT NEW HOUSE

To accommodate an influx of new business which it is expected will come this fall following the raising of bumper tobacco crops, the Bourbon Tobacco Warehouse Company is making preparations to erect a new warehouse.

This will make the third warehouse to be operated by this company. A permit for the erection of the structure was granted by the City Council sometime ago.

The new building will be 250x150 feet, to be constructed of brick and steel with ample lighting facilities, and is to be completed in time for the winter sales.

The following contracts for work on the structure were let recently: Bourbon Lumber Co., lumber; Woods & O'Brien, foundations; Board & Lyons, skylights and roofing; Granger & Co., Louisville, steel work.

This company's business had increased to such an extent that it became absolutely necessary to enlarge their facilities, making the erection of another warehouse an absolute necessity. The Bourbon Tobacco Warehouse Company holds the world's record for the season's highest average.

Across the Atlantic.

The voyage of Columbus across the
Atlantic resulted in a development
of marine traveling towards the
Western continents undreamed of
prior to his adventurous trip. So,
it will be noted in future time, that
Lieut.-Commander Reed's one-stop
trip from New Foundland to Portu-
gal be recognized as a forerunner of
airies of aerial sails, or wings, to
follow the nomenclature of the air.

The flight of the NC-4 was re-
markable in more ways than one. On
May 8 it left Rockway, Long Island,
but was forced to land off the Massa-
chusetts coast, but reached Halifax
on May 14. The next day it jour-
neyed from Halifax to Trepassy Bay,
N. E., 460 miles, and on May 16-17
went from Trepassy to Horta, in the
Azores, 1,350 miles, in about fifteen
hours. On May 20 it went to Ponta
Delgada, another island, some miles
further eastward. On May 27 it
went the remaining 800 miles to
Lisbon, Portugal, and completed the
first aerial trip from America to
Europe under its own power.

The flight across the Atlantic re-
calls an effort of Vaniman (?) in
1910, who set out for Europe in a
dirigible, which was wrecked by a
storm two days out at sea. He was
rescued, and in 1912 started from
Akron, Ohio, on a second voyage, but
explosion in midair resulted in his
death. A Frenchman, within recent
weeks, set out for an Atlantic flight,
but was forced to land in Africa (he
was going to Brazil) although he
covered more miles than Reed did in
any single flight.

Fifteen Years—and Then?

Those who read Ambassador Mor-
genthau's story of Turkish intrigue
at Constantinople will weigh care-
fully his statement that in fifteen
years the United States would be in
another war.

From what quarter, for what
causes, or with whom the danger im-
pedes the distinguished diplomat
does not say; as a matter of policy
he could not express himself. But,
he is not the only man thinking the
same thing.

The Versailles peace conference is
attempting to settle world-wide ques-
tions. Some of the statesmen pres-
ent are making an honest effort to
secure a measure of permanent
peace, but there are some decisions
and some arrangements which will
not last the fifteen years Ambassador
Morgenthau sets as the limit.

America entered European broils
because a world at war affected
everybody, and the time came at last
when we had to enter the conflict.
We are now represented at the peace
conference in the hope that righteous
settlements can be made which will
obviate our entering another war in
the future, but will our hopes be in
vain?

The League of Nations presents the
only firm ground upon which to rest
our aspirations and hopes for peace.
If this can be made strong enough
and kept righteous enough, it will
maintain peace in the world—other-
wise, there'll be more wars. Fifteen
years is not too near a limit for wars
(not necessarily with present ene-
mies) over conflicts nations now
signing peace as joint victors.

The Needs For Homes.

Throughout America the cry for
houses is heard. The government of
the United States, or of the individ-
ual States, can do nothing better
for the common good than to arrange
for long term loans to those wishing
to build their homes. A nation of
home owners is firm as a rock; a na-
tion of renters is in peril.

Many of our citizens never reach

the stage of accumulated wealth.
Most of them own their homes, but
the increasing number of those who
are compelled to rent is alarming.
The man who never accumulates the
nucleus of the price of a home can
own his home if the government will
give him plenty of time. Instead of
renting for half his life he will pay
for his place, own it, and take care
of his family to better national and
local advantage.

This may be radical to the owners
of great mansions. It may not be to
the taste of the owners of the rented
homes, but it is in keeping with the
betterment of mankind. A com-
munity of renters is not to be de-
stined. The American homes is a great
institution, and a little back yard
helps it flourish.

The World Hope of Peace.

Dispatches showing that Great
Britain and Japan have entered into
a favorable combine towards their
mutual trade surprise Americans. In
fact, many pacts of this kind we may
never know unless President Wilson
uproots them in the same manner
that he uncovered the secret treaty
of London.

The people of the world, however,
have a right to know just what se-
cret settlements have been made in
the interest of trade. If trade is of
more importance to nations than
good-will it is time for us to follow
other leads and make a few arrange-
ments on our own hook. Peace will
never come as a result of unfair ar-
rangements to land the commerce of
the world. Unless peoples are free
to trade where the superiority of
their goods, or the supremacy of op-
portunity it is useless to talk of
peace.

The quest for world trade has
caused more wars than anything
else. It will undoubtedly cause wars
in the future unless equality is
vouchsafed to all nations. Why
can't diplomats learn from a sea of
blood that what people want is peace,
not international commerce built up
by false restrictions, which inevita-
bly cause strife.

Judge Lindsay's Fine.

Judge Ben D. Lindsay obtained
world-wide fame as a result of his
juvenile court in Denver. He con-
sidered every boy or girl charged
with a crime as a ward, not a crim-
inal, and he solicited their confi-
dence about their troubles. A little
girl of thirteen once told him about
a row between her father and
mother, in which the former was
killed. In the face of difficulties
Judge Lindsay has kept the faith he
pledged!

The mother was being tried for
murder, and Judge Lindsay refused
to reveal to the jury what the little
girl told him. The presiding judge
fined him \$500 for contempt of
court, and the punishment was sus-
pended when the district court's or-
der was appealed to the State Su-
preme Court. Recently, this higher
body affirmed the fine, and Judge
Lindsay will have to pay.

Whether Judge Lindsay acted
wisely in making a pledge not to re-
veal what he was told or not, even if
commanded by courts, may be an
open question; but, everybody will
admire him for standing firmly by
his own pledged word. The \$500
may pinch a little, but broken faith
would have pinched even more.

Paris People Should Know How To
Read and Heed Them.

Disordered kidneys give many sig-
nals of distress.

The secretions may be dark, con-

Backache is often present day and

Headaches and dizzy spells may oc-

Weakened kidneys should receive

Doan's Kidney Pills are for weak
kidneys, backache and urinary dis-

Paris evidence proves their worth.

few years, the first being the worst.
There was a constant, dull ache in
my back all the time and often sharp,
cutting pains darted through it. It
sometimes seemed as though I could
hardly endure the misery. I tried
different remedies with no results.
I heard of Doan's Kidney Pills and
procured them from the Ardrey Drug

CROSSED BREEDS OF DUCKS

"Burbanked" Type, in Louisiana, Will
Not Migrate, as is Customary
With the Species.

Stanley Cilsby Arthur, ornithologist
of the conservation commission of
Louisiana, is authority for the state-
ment that the state "Burbanked" the
wild duck, the cross of which "set,"
and they produced a duck that will
remain in the state the year round.

Louisiana is visited by the green-
head mallard, which leaves in the
spring for the North. Also by another
species known as the summer mallard,
or Florida duck, which spends its
summer in Louisiana and winters in
Mexico and Central America. It leaves
Louisiana on the approach of cold
weather.

The experiment of crossing the
greenhead mallard, the winter visitor,
with the summer mallard, or Florida
duck, the summer visitor, was con-
ducted by M. L. Alexander, conserva-
tion commissioner, and Edward A. Mc-
Ilhenny at Avery Island, a state pre-
serve.

Species of the two ducks were
trapped, mated and the eggs proved
fertile. The experiment proved a suc-
cess. The "Burbanked" ducks have
been termed the "Louisiana mal-
lard." The "Louisiana mallard" has
produced its own young, and Mr. Ar-
thur says the cross has "set."

Hundreds of these "Louisiana mal-
lards" were released on Marsh Island,
a wild life sanctuary, so that they
might perpetuate themselves.

OLDEST OF EARTH'S CITIES

Damascus Has Seen the Rise and Fall
of Races Which Are Mere Shad-
ows in History.

What times and changes such a
place as Damascus has seen, what
waves of peoples, what rise and fall
of kings, what increase and collapse
of greatness, what kaleidoscopic his-
tory! What the autochthonous popu-
lation of the place was is a point prob-
ably past historic decision. The ear-
liest records find in control a race in-
definitely related to the Mesopotami-
ans. Then the march of races and
peoples begins, and the rise and fall
of conquerors. Hittites, Amorites,
Suti, Khabiri, Jews, Assyrians, Cim-
merians, Egyptians, Armenians, Arabs,
Persians, Macedonians, Parthians, Ro-
mans, Seleucids, the Omayyads, the
Abbasides, Mongols, Tartars, modern
Egyptians, Ottomans, and the English,
have swept through this oldest dwell-
ing place of gregarious humanity, and
still it flourishes, to this day as popu-
lous as such places as Kansas City or
Denver or Indianapolis, Louisville, St.
Paul, or Rochester, and relatively far
more important.

Merits of October Ale.

Not the fluid of that name, but the
elixir that is in this golden October
sunshine. Influenza germs are deadly
afraid of clear, cool, snappy sunshine.
The whole outdoors is full of it, and
the invitation to enjoy it is so urgent
and cordial that the man or woman
who refuses to accept it is only add-
ing to the risk that the doctors de-
clare everybody is assuming these epi-
demic days. Nature is trying to add
compensation for the anxieties attend-
ant upon contagious disease. In her
cornucopia she has stored remedies
that are not only effective but pleas-
ant to take. Get out of doors into the
October sunshine that has been and
will be pouring its curative and stimu-
lating forces over the country. The
walking is fine and the landscape never
more varied and beautiful. The
forests are garbed in brown, purple
and gold. The silences are eloquent
with the slumber song of nature. The
air is a tonic for tired, taut nerves and
bodies. Get out of doors and shake
off the fears as well as the germs of
influenza.—Pittsburgh Gazette-Times.

Old Valenciennes.

"The town of lace," wrote William
of Orange to the Estates on the 13th
of April, 1677, "is lost to us. We are
very sorry to be obliged to tell your
high mightinesses that it has not pleased
God to bless on this occasion the
arms of the state under our guidance."
But lace is no longer made in Valen-
ciennes, the capital of an arrondisse-
ment in the department of the Nord,
and a fortress of the second class. But
it is nevertheless a quaint town, with
sufficient seventeenth century houses
to give it a medieval appearance. The
handsome Hotel de Ville is also largely
seventeenth century work, and before
the war contained a large collection of
tapestries and of paintings, especially
of the Flemish school. The city also
possessed an academy of sculpture and
painting, a museum of natural his-
tory, a lycee and an arsenal.

Gigantic Punch Bowl.

The largest punch bowl ever used
was at a party given at Alicant by Ad-
miral Edward Russell in 1694, when a
marble fountain was converted for the
occasion into a punch bowl. The in-
gredients used in brewing the punch
included four hogsheads of brandy,
one "pipe" of Malaga wine, 20 gallons
of lime juice, 2,500 lemons, 1,300
pounds of white sugar, five pounds of
grated nutmeg, 300 toasted biscuits and
eight hogsheads of water. A boy in a
boat filled the cups of the 6,000 per-
sons who partook of the contents of
the mighty punch bowl.

KENTON PHYSICIAN PRAISES TRUTONA

Dr. Richards' Indorsement Backed by
35 Years' Constant Medical
Practice.

KENTON, TENN., June 26.—Dr.
J. Richards, 78 years old, has been a
resident of this vicinity for years and
is well known and highly respected
by everyone. For the past 35 years
Dr. Richards has been actively en-
gaged in the practice of medicine
here, during which time he has won
the confidence of thousands of ac-
quaintances, together with the credit
of being among the most prominent
physicians in this part of Tennessee.
His following public indorsement of
Trutona will give to thousands faith
in the perfect tonic which can only
increase with use of the new medi-
cine:

"Everyone knows that a man in
my profession would not and could
not recommend a medicine unless it
was really one of merit," Dr. Rich-
ards said. "But I have tried Trutona
and I know it to be a tonic of real
merit."

"I've been annoyed with nervous-
ness for several years. My appetite
was poor, too, and I found it difficult
to rest well at night."

"Duty compels me to recommend
the new tonic as an appetizer, a
strengthening, system builder and real
nerve tonic. In short—a tonic that
has real medicinal merit. I hope
everyone suffering from nervousness,
loss of appetite and a generally run
down system will try Trutona."

Trutona is now being introduced
in Paris at G. S. Varden & Son's.

THE MOST DANGEROUS DISEASE

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to lag in their duties, look out! Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back—wake up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

MIDSUMMER MEETING OF KENTUCKY PRESS ASSOCIATION

The fiftieth annual mid-summer meeting of the Kentucky Press Association will be held in Louisville, June 26, 27 and 28. All sessions will be held at the Seelbach hotel except Thursday night, June 26, when there will be a joint meeting with the Kentucky Educational Association at the First Christian church.

Among speakers who will be heard are Governor Henry J. Allen, of Kansas, editor of the Wichita Beacon, who was elected governor while

doing war work in France; Walter W. Williams, dean of journalism, University of Missouri; Rodman W. Wiley, State Commissioner of Roads; Mrs. Cora Wilson Stewart, president of the Kentucky Illiteracy Commission, and originator of moonlight schools; Courtland Smith, president of the American Press Association, New York City, and various members of the Kentucky association.

The president, D. M. Hutton, editor of the Harrodsburg Herald, will preside, and members will be entertained with a luncheon and theatre party by the Louisville Convention and Publicity League.

AFTER-WAR PROBLEM SOLVED BY THE PEOPLE.

There is a need to-day of a great many manufactured articles, of goods which we were not able to manufacture during the war. Two years have entirely depleted the surplus stock in nearly every line except war munitions.

Then, Government economists, through the medium of the Department of Labor, state frankly that the American people are in an excellent position to buy. Wages were high during the war and means of expenditure were limited.

To-day we have the proper conditions for a demand that will lead to large production, the revival of business and the end of any serious unemployment. As a result of which Roger W. Babson, Director General of the Information and Education Service of the Department of Labor, is urging the people to buy now in order that business may receive this needed stimulus.

Mr. Babson asks pointedly: "What are you doing, Mr. Merchant; and you, Mr. Everyday Workingman?" He then urges them to get together, to co-operate, to keep industry going.

He admonishes them to adjust their business, to adjust themselves to the after-the-war conditions. He urges them to renew buying, to renew selling, to renew producing on the new peace-time basis, and thus create jobs for our returned fighters.

He says: "You who have work, you who have money, buy now—for your plant, your store, your own little home. Get going full speed ahead. Buy now!"

Peanuts or Steak?

CAN FISH REALLY HEAR?

Can the humbler minnow or any of his larger brethren hear? He has ears, but are they any use to him? Some scientists have experimented and said "Yes!" while others have experimented and said "No!" However, recent study seems to indicate that fish do hear. According to Popular Science Monthly, some of the fish experimented upon had their ears removed, and others had their skins made insensible. Then sounds were made in direct contact with the water, but without agitating it at all, and signs looked for. It was found that fishes were influenced by sound. One of the most peculiar and striking manifestations was the fact that a fish had its hearing organs destroyed lost its sense of direction when swimming fast. It could swim straight slowly, but as soon as it attempted to put on speed it went round in spirals. Considering that many species of fish travel considerable distances during their periods of breeding and depositing their eggs, such loss of direction would tend to make them easy prey for their enemies.

CHRONIC CONSTIPATION

Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual of the food. If you will drink an abundance of water, eat raw fruits and take lots of outdoor exercises, you may be able eventually to overcome it entirely. In the meantime use the most mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system and make a bad matter worse. Chamberlain's Tablets are easy and pleasant to take, and most agreeable in effect. Give them a trial.

THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED

People are often very much disappointed to find that their physician is away from home when they most need his services. Diseases like pain in the stomach are bowels, colic and diarrhoea require prompt treatment and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life.

MATRIMONIAL.

STRODE—SUTHERLAND.

—The marriage of Miss Martha Frances Strode, of Winchester, to Mr. Clay Sutherland, of Paris, was solemnized Wednesday afternoon at 5 o'clock at the First Baptist church, in Winchester. The bridesmaids wore dainty organdie frocks in various colors of the rainbow, and the effect was brilliant and beautiful.

The bride was attired in an exquisite costume of white Georgette crepe with hat to match and carried a charming bouquet of white bride's roses.

The church was decorated with potted ferns, and cut flowers for the occasion. The ceremony was impressively performed by Dr. B. B. Bailey, of Maysville. Mrs. J. M. Walker played the wedding march, and Mr. John Hodgkin sang.

Miss Elizabeth Crutcher, of Paris, was attired in pink; Miss Annette Cole in blue, Miss Louise Kohlass in yellow and Miss Helen Fox in lavender. Mrs. Cecil Haggard, matron of honor, and sister, of the bride, wore a green costume. All the young ladies wore fetching organdie hats to match their dresses, and carried harmonizing arm bouquets.

Phelps Renick of Winchester, was the best man, and the groomsmen were Stanley Dixon and William Collins, of North Middletown, Hugh McDonald and James Allen, of Winchester.

After the ceremony, Mr. and Mrs. Sutherland left for a wedding trip to Chicago, and later will make their home in Paris. Mr. Sutherland is a son of Mrs. Fanniebelle Sutherland, of this city, and is a popular and prominent young man. He is traveling representative for Swift & Company. The bride is a daughter of Mr. and Mrs. Clayton Strode, of Winchester. She is a member of one of the most prominent families in Clark county, and is possessed of a sweet and lovely personality. The young people were the recipients of many handsome and costly wedding gifts, as token of the admiration and good wishes of their friends.

After the ceremony the young men of the bridal party entertained with a dining at the Phoenix Hotel, in Lexington, in honor of the newly-married couple. About eighteen couples from Winchester and several intimate friends from Paris were present.

The ceremony was witnessed by a large number of relatives and friends from Paris and the county. The groom is one of the most popular young men in the county, one whose friends are numbered by the score.

THE NEWS, in common with these hundreds of friends, extends heartiest congratulations and good wishes for a long and happy married life to Mr. and Mrs. Sutherland.

Mr. Walter Lawrence was groomsmen, while the bride was given in marriage by her brother, Mr. Frederick Osborne. The wedding music was furnished by Miss Mary Peeples at the piano and Misses Josephine McNeil and Catherine Hughes, soloists.

BLUEGRASS SEED MEN NAME POOL COMMITTEE.

At a meeting of Bluegrass seedmen, held in Winchester, a committee was appointed to make a canvass of the Bluegrass counties in an effort to pool the seed and to report back Saturday, when a selling committee will be appointed in the pool. Warren Rogers was chairman of the meeting and Joe S. Lindsay secretary.

The committee and the counties they represent, was named as follows: Madison county, Albert McCown; Bourbon, L. A. Soper; Fayette, Rhodes Ellis; Clark, Joe Lindsay; Montgomery, Hughes Atkinson; Woodford, Hardin Field; Scott, Rhodes Thomas; Boyle, Jerry Caldwell.

A Bourbon county man, who attended the meeting, stated that it was the opinion of those present that blue grass seed is in a strong position, owing to the fact that the crop has been very short for the past two or three years and is not an average one this year.

Added to this the supply in the hands of the dealers is about exhausted and the demand is insistent, because under war conditions much beyond the usual acreage has been cultivated in other crops to supply the world's pressing needs. Much of this land must now be sown in grass, and it is confidently expected now that the markets of the world are opened, that the foreign demand will take care of an appreciable portion of this year's crop.

It was also pointed out that blue grass seed is out of line in price with other grass and clover seeds, as well as all farm products grown under abnormal conditions of high-priced labor, machinery and the advancing values of land, together with the soaring expense of everything that enters into the production of crops. Considering this fact it was the belief of the meeting that by co-operation blue grass seed growers can secure a reasonable price for their crops.

THINGS TO WORRY ABOUT

A group of public-spirited citizens, supplemented by the local papers, endeavored to arouse public sentiment and interest in the patriotic celebration of the Glorious Fourth of July in Paris. The movement went down ingloriously, because the public could not be stirred up and interest was lacking. And to point out the opposite, the dead walls in Paris are ornamented with flaming posters advertising Fourth of July celebrations in Mt. Sterling and Winchester. In nearly all the surrounding towns the great day is to be appropriately observed. Yet Paris has to stay in the rear, despite the earnest and well-meant efforts of those who tried hard to get up interest in a celebration.

For the BEST, See Us,

FRANK BURTON

Professor H. Strauss, M. D., of the Royal Charity Hospital, says, "The cause for an attack of gout, rheumatism, lumbago, is supplied by the increase of uric acid in the blood serum, the result of various causes, the most frequent of which is renal. Before an attack, one suffers sometimes from headache, neuralgia, twinges of pain here and there."

When your kidneys feel like lumps of lead, when the back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; when you suffer with sick headache, or dizzy, nervous spells, acid stomach; or you have rheumatic pains or lumbago, gout, sciatica when the weather is bad, do not neglect the warning, but try simple means. Take six or eight glasses of water during the day, then obtain at your nearest drug store "An-uric" (anti-uric acid).

This is the discovery of Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y. "An-uric" is an antidote for this uric acid poisoning and dissolves uric acid in the body much as hot coffee dissolves sugar. "An-uric" will penetrate into the joints and muscles, and dissolve the poisonous accumulations. It will stamp out toxins. Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

NUMBER OF GAS WELLS IN KENTUCKY INCREASING

A recent report from Magoffin county is to the effect that more than 2,500,000 cubic feet of natural gas is being piped from that county by the Bed Rock Oil Company and the Union Oil & Gas Company. Drilling for oil and gas in this county has been active for the past few months, and only recently these companies completed these gas wells which are now supplying the domestic consumers of Louisville and other Kentucky cities with gas. Until recently the gas produced from the Kentucky fields was not considered of an equal quality with that produced in West Virginia, but with the increased number of gas wells that have been completed in Kentucky, the industry lately has attracted much attention, the output from a number of the wells being used by the gas companies at the present time for consumption in Kentucky.

LEXINGTON CLAIMS TO HAVE HAUNTED HOUSE.

An old, substantial brick residence, located on one of the principal thoroughfares in Lexington, has been considered a haunted house ever since the War of the Rebellion. Old citizens claim that during the war a wounded Union soldier, who had met his fate in the battle of Richmond, and who was being taken care of by the family that then lived in the house, was brutally murdered by a Southern sympathizer in the cellar of the residence. Ever since then, so the story goes, there have been uncanny doings and mysterious noises seen and heard in this old mansion at regular intervals of six months apart. At these times, when the families occupying the house would be at supper, lights left in the living room and other parts of the house would be extinguished, and sounds, very much like the groans of a person in agony, could be distinctly heard. No one ever saw anything other than this until a few evenings ago. The family that has been occupying the house for the past three months, and who did not know of the supposed existence of this peculiar ghostship, were sitting at their table eating supper at about 6:45 o'clock. The parlor had been lighted up, as there was some young company visiting the house, and the lamp was brightly burning in the living room. The servant girl had occasion to go into the parlor and living room during the progress of the meal, and when she returned, she exclaimed: "Miss Sallie, who dun blode out dem lights in yor room an' in de parlor?" Miss Sallie did not know, of course, and before the astonished household could ever recover from their surprise, deep groans were heard as if coming from the living room, which was separated from the dining room by the folding doors. The groans grew louder and more agonizing in their tones, until suddenly the folding doors opened backward, and in the center of the threshold the now thoroughly frightened family and friends beheld a sight which is usually supposed to freeze the blood with terror. There stood the form of a man with his hands uplifted, and he seemed enveloped in a white gauze, through which could be seen a bloody and apparently bleeding breast. The apparition only remained in sight of the terror-stricken people but a few seconds, and slowly disappeared in the gloom of the darkened room behind it.

The supper was left unfinished, and there was no sleep in that house that night. The next morning the head of the household notified his business partners that he would not be at the office that day, and before night he had secured another house, into which he moved his family the next day. This story was given by a neighbor and a friend of the family, who is a thoroughly reliable man, and says that every word of it is true.

CATARRAL DEAFNESS CANNOT BE CURED

By local application, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system.

We will give one hundred dollars for any case of Catarrh Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Drug-gists, 75c.

GEESSE AS WATCH DOGS

No domesticated birds are so faithful, so interesting, so intelligent as geese. They revel in the society of those who own them in remote parts of Ireland and Scotland the geese share the family hearth. This is one of their strongest characteristics. They love to pass the night near the homestead. They do not need a warm, comfortable building to sleep in; they are quite contented, happy, and healthy if allowed to sit down outside the back door. They are light sleepers. A stranger cannot approach within a hundred yards or so without their hearing him and screaming at the top of their shrill voices.

They will often wander a few miles during the day, but they will faithfully return in the evening. You will find them punctual. They will time themselves to be back just as daylight is fading, and at the hour at which you generally get up in the morning they will see to it that you are called. They will knock at the door and at the windows, too, if they can reach them, and every few minutes they will scream. They are as reliable as an alarm clock.

LAME BACK RELIEVED.

For a lame back apply Chamberlain's Liniment twice a day and massage the muscles of the back over the seat of pain thoroughly at each application.

SENT A HURRY CALL.

A hurried call has lately come to the College of Agriculture from Whitley County. The wire stated either "take-all" or "flag-smut" was present in wheat fields and expert advice was needed at once. Miss Mabel Roe, specialist in plant diseases, was sent to investigate and report to the Extension Division and Washington.

These two new foreign diseases have made their appearance in the United States this year and Uncle Sam is striving to locate every outbreak. In a late issue of the Weekly News Letter of the Department of Agriculture, Uncle Sam says:

"The damage to Tennessee and Missouri wheat was caused by insect ravages, scab, anthracnose and rust. The 'take-all' disease, which was first discovered in Madison County, Ill., has not been found elsewhere, except in Sangamon and Madison Counties, Ill., and Laporte, Porter and Tippecanoe and Jasper counties, Ind."

Furthermore, we might be willing to board a mocking bird if it would play only when we wound it up.

**CLEAN MILK NOT A MATTER OF
FINE BARN.**

The Kentucky Division of Extension
tells this story about Prof.
Nicholls, and his work:

"Several years ago the huge dairy
herd of J. B. Haggin, at Lexington,
was housed and handled to produce
perfect milk. However, the marvel-
ous barn and the intricate and costly
milk house did not always produce
certified milk that would stand the
test.

"Mr. Nicholls' barn and milk house
were very plain structures. The
writer, while in the barn, asked,
'How can you keep your bacterial
count low enough when your walls,
studding and joists are all of rough
lumber?'

"Mr. Nicholls smiled and said,
'It's only a matter of plenty of white-
wash and constant dusting.'

"The Haggin barn, with its tiled
walls and concrete floors, did not
have the proprietor's thought behind
it. The Nicholls' plain oak barn did
have this thing, which always
counts."

The co-eds do not use profane
words, so there!—and they are wil-
ling to swear to it.

and enjoyed throughout America, the
British Provinces, China and Japan.

tauqua heading her company, the
Emily Waterman Concert Party; sec-
ond day.

KENNARD BARRADELL.

Mr. Barradell is a leading member
of the Pinafore cast that is to sing the
famous light opera at the local Chau-
tauqua. He sings the role of Sir Jo-
seph Porter. He possesses a beauti-
ful tenor voice, having sung in light
and grand opera for years. He has
also made an enviable reputation as
a comedian.

Pinafore is greatest of all the light
operas sung in English, and its songs
and melodies have been sung and
whistled around the world. The
Davies Opera Company which puts on
the production here is an all-star or-
ganization; fourth night of the Chau-
tauqua.

ELIZABETH HUNT.

The American Red Cross, represen-
ted on the Chautauqua here by Miss
Elizabeth Hunt is co-operating with
the local Red Cross Chapters in a na-
tion-wide "Better Health" campaign.
Miss Hunt is an American Red Cross
nurse who served with distinction in
France and in Italy, and recently as
chief nurse in one of the prominent
American war hospitals. Miss Hunt
speaks on the sixth afternoon of the
Chautauqua.

Famous Old Scottish Song.

"The Blue Bells of Scotland" is
not only popular in the land of
the thistle, of which it sings, but it
has an international appeal. It was
written by Miss Annie McVicar, a
young Scottish woman, who spent con-
siderable of her early life in Amer-
ica. The occasion which prompted
the words of this song was the de-
parture of the Marquis of Huntley
for the continent with his regiment
in 1799.

The music to which Miss McVic-
ar's poem has been set is several
hundred years old, and it was rescued
from oblivion by Mr. Fitzgerald, to
whom the world owes a great debt of
gratitude for his untiring work in this
direction.

Brave and Unyielding Freedom.

The liberty which our fathers plant-
ed, and for which they sturdily cou-
tended, and under which they grandly
conquered, is a rational and temperate,
but brave and unyielding, freedom;
the august mother of institutions; the
hardy nurse of enterprise; the sworn
ally of justice and order; a liberty
that lifts her awful and rebuking face
equally upon the cowards who would
sell, and the braggarts who would per-
vert, her precious gifts of rights and
obligations.—Edwin P. Whipple.

AND STILL THEY COME!

A Hudson seven-passenger car was overturned at the "Death Curve," about four miles from Winchester on the Lexington pike, Wednesday afternoon, and the passengers had a narrow escape. They gave their names as Misses Mary Wright and Margaret Hafer, of Mt. Sterling, J. E. Jones, Jack Smith, Lawrence Piercy and Otho Ritchie, of Lexington.

The car was on its way from Lexington. Piercy claims as they neared the curve, Smith, who had been drinking, took hold of the steering wheel, causing the car to plunge from the road. It was overturned several times, according to members of the party.

Smith was bruised and had a bad hemorrhage of the nose. Ritchie's ear was torn practically off and he was otherwise injured, requiring an anesthetic and an operation. Miss Hafer's hand was cut. Others escaped without injury. The car was badly damaged.

RAINS HELPING CROPS, BUT DELAYING HARVESTS.

Copious rains which have fallen in this vicinity almost every day this week have greatly helped growing crops of all kinds and furnished a good season for setting out the remainder of the tobacco land. While the rains have not been accompanied by much wind in some sections of the county some of the wheat has fallen which will be lost, as it will be impossible to get under it with the binder.

It is said by some of the farmers that the wheat crop will prove a disappointment in some places where the heads have not filled out well on account of the cold, rainy weather which prevailed during the month of May.

Heavy rains fell here yesterday afternoon again, lasting well through the latter part of the day. A traveling man who came from Maysville to Paris stated that in the vicinity of Millersburg the downpour amounted to almost a cloudburst. In some places the water on the pike was up to the hubs of his machine. For a time the heavy black clouds gave promise of a storm, but it luckily passed off in a heavy rain.

INTERESTING STATISTICS SHOW COST OF AMERICA IN WAR.

It took nearly \$800,000 an hour, twenty-four hours a day, from April 6, 1917, to June 1, 1919, for the United States army to put up the fight necessary to beat Germany, Secretary Baker informed the special House Committee, at Washington, investigating War Department expenditures.

The figures breaks all spending records of Government departments in the history of the country. The daily expenditure was about \$19,000,000, which made a total cost in slightly more than two years of more than \$14,000,000. To that must be added the expenditures of the Navy Department, Shipping Board and all the special bureaus, besides the increased expense to the regular departments to obtain the total war bill of the country.
